

COMPORIUM ETHERNET

Metro Ethernet offers businesses a way to expand and connect their networks; as well as, receive dedicated high speed Internet access deployed over a fiber-optic network. Metro Ethernet combines the power of Ethernet and optical technologies across the Comporium MPLS network to provide businesses a low cost, scalable and secure bandwidth solution. It is capable of supporting multiple applications such as data file transfer, Internet access, off-site data storage and access to Hosting and other outsourced applications. Metro Ethernet also allows each business to consolidate and prioritize its voice, Internet and Data connections across one Metro Ethernet connection for a cost-effective solution.

Businesses of all sizes are looking for new ways to meet their business requirements: more bandwidth, lower infrastructure costs, scalability to meet dynamically changing business needs and simplicity.

Metro Ethernet Solutions:

- **Dedicated Internet Access** – Dedicated IP access to the Internet via Ethernet access
- **Point-to-Point** – Dedicated interconnectivity between two facilities
- **Point to Multi-point** – Dedicated high-capacity connections between multiple offices
- **Multi-point to Multi-point** – Dedicated any to any high-capacity connections between multiple offices
- **Voice, Data and Internet Managed Connection** – Consolidate Hosted VoIP, Internet and data traffic on the Comporium Metro Ethernet connection

Benefits and Features

Scalability

- Scalable capacities with bandwidth options from 10Mbps to 100Gbps – allowing you to pay only for what you need

Reliability

- Comporium's MPLS carrier-grade network is private and secure – offering you improved and solid network resiliency
- Network – monitored SLAs / Quality of Service (QoS) demanded features

Cost Effective

- Tailored solutions to meet goals and budgets for businesses of all sizes

Increase Productivity

- Dramatically improve daily business operations with fast, dedicated and symmetrical access speeds

Support

- Local, dedicated account representative, implementation and training team
- 24x7x365 technical support with business-grade service level agreement
