

SECURE AND DEFEND YOUR BUSINESS'S VIRTUAL DOORWAY

CLAIM, LOCK DOWN AND MANAGE YOUR ONLINE DATA, PROFILES
AND MESSAGING WITH BUSINESS INTELLIGENCE SERVICES.

In today's digital-centric world, few things are more important to the success of your business than your virtual doorway. When you consider that most consumers make their buying decisions based on what they discover online, it's absolutely essential for you to stay in control of your digital footprint, and to be vigilant about consumer reviews and interactions.

SAFEGUARD YOUR ONLINE PRESENCE WITH A FREE BUSINESS ANALYSIS.

Comporium Business Services offers a Business Intelligence program that's designed to safeguard your online presence. Some highlights of the program include the following:

- Claim and Lock Down business profile information with major search engines, online directories and mapping/navigation platforms.
- Monitor mentions and reviews from customers and employees about your brand and key stakeholders in your business. Be alerted via notifications and daily digest reporting.
- Receive weekly and monthly reporting for your business profile submissions, corrections and synchronizations. Get real-time access to live-data analysis of your business presence online.

Your virtual doorway can either work for or against you.

Let's make sure yours is helping to move your business forward.

Call us today to discuss our Business Intelligence capabilities, and how we can help secure your business's online profile and protect your brand's online reputation.
